

## **AM.CO.ZA AcroRIP DTFRIP/DTGRIP Minimal System Requirement**

Is there a minimal requirement for Windows and hardware?

Not any specifics but we suggest any PC with minimum specs and should work fine.

Some specs below if that helps-

- 12 GB RAM
- 256 GB Hard drive (SSD Preferable)
- 2 x USB Ports (Standard)

What's NOT needed or must be avoided-

- NOT operating in S\_MODE (Safe Mode)
- NO Chromebook
- NO Touchscreen

====

Other than that, it's up to you and the more you want to get on it, the smoother the PC will run and handle these software's.
