

Those Are NOT Normal Batteries

Reserved Battery	Reserved Battery	Live	Live
---------------------	---------------------	------	------

When you see ERR 40

1. Keep Machine On (very important)
2. Remove the batteries in "Live" Position
3. Put Batteries in "Reserved" position to "Live" Position
4. Reboot machine

Remember buy another two batteries to Reserve for next battery change.

- Size: AA
- Voltage: 3.6V
- Type: Lithium

Contact AM.CO.ZA Support if you failed to change battery or machine position shifted during battery change.
