FastCAM® – NC (Software) Systems complete CAD compatible drawing and nesting, smart postprocessors
 FastCAM® has over 40 post processors. Your individual machine controller must be specified at time of order.

Code	Product	Fast Facts	Application	Price
FC1.7	FastCAM® NC	Drawing, NC, no nesting, no 'multi' features. Includes these trademarked products: FastCAM, FastPLOT Includes CAD compress and CAD clean.	Great value for single part cutters. Draw and path manually. *Add FastNEST or FastPATH later if and when required.	\$995.00
FC2.1	FastCAM® Standard	Single Plate, NC→NC, True Shape Semi Automatic Nesting. Includes these trademarked products: FastCAM, FastPLOT & FastNEST interactive (semi automatic nesting). Also includes CAD smart tools. NEW! Now includes AutoCAD DWG import.	Appropriate where production levels aren't as critical or demanding (Repetition cutters, low duty cycle etc). Full featured but manual. * Upgrade to the Professional Edition at any time.	\$2,495.00
FC2.2	FastCAM® Professional	Full Shape fully automatic nesting. Multi Plate, Multi input, Multi Output Includes these trademarked products: FastCAM, FastPLOT, FastPATH & FastNEST Full Automatic Nesting Also includes CAD smart tools, NEW! Now includes AutoCAD DWG import Common Cut Pairs & Gas Axe technology for skeletal plate breakup.	The most popular and our recommended system. Offers best efficiency and best value as a <i>complete</i> professional drawing system with NC verification, Automatic Nesting and Automatic Pathing. Also includes <u>Bulk</u> CAD features and the ability to move pierce function before and after nesting.	\$4,995.00

FastCAM® - Laser Systems complete CAD compatible drawing and nesting, smart postprocessors

FCL2.0	NC Direct	Accepts a CAD drawing directly into Laser. CAD Clean, Pathing, Hole avoidance, Lead In's/outs. Graphic program verifies and outputs NC code.	No programming required. Runs directly on Machines with MS Windows based controllers DXF, IGES, CAM → NC	\$3,495.00
FCL2.1	FastCAM® Standard	Interactive (semi automatic nesting) Includes FastCAM NC, FastPLOT & FastNEST TextMARKER	Single Plate, DXF, IGES, CAM → NC, True Shape Semi Automatic Nesting	\$4,495.00
FCL2.2	FastCAM® Professional	FastCAM, FastPLOT, FastPATH & FastNEST Fully Automatic Nesting, TextMARKER, FontGEN & other Laser functions.	Full Shape fully automatic nesting. Multi Plate, Multi input, Multi Output	\$7,995.00

FastCAM® – Quotation/Estimation Systems (Service Center Volume Breaks & Site Licensing available)

FCQ1	FastCAM® QE™	Comprehensive, Purpose Built Quotation System w/Optimizer for Metal Service Centers. Contains both Linear and Plate based optimization with the least percentage scrap. Available for Profile or Long Quoting Only. Includes scalable multiuser SQL database.	Produces an Email or fax ready quote after nesting, with full allowance for all remnant, scrap and processing costs. Estimate & material Optimization. Profiling, Shearing: Parametric, True Shape, Rectangular Sawing, Drilling for Long products, Beams, Channels, Angles etc.	POA Can be licensed per user, per site, or per company
FCQXML	XML Output Option	Allows FastCAM QE to output quote files in a descriptive 'standard' way (meaning most other applications can query quote information).	Important Note! This type of integration also requires some modification to your accounting, MRP or ERP system.	\$2,500.00
MTO	FastCAM® MTO	Excel like program with drop down catalog for quick structural steel take-off. Creates BOM's in minutes.	Use and distribute freely to colleagues and customers for single data entry. Feed data into QE to automate costing.	Freeware

Note: Although not categorized as quotation programs, FastPLOT and FastCUT offer benefits to estimators.

FastCAM® – Service and Maintenance for FastCAM NC Systems and FastSHAPES

FCWS	Additional Workstation Licence	Additional licence for your existing software	\$1,250.00
FCT	Training	2 Day on site Training within N.A. only, inc travel & accommodation	\$2,650.00
FSE	Service, Maintenance Agreement	SMA - Annual Software Maintenance/Upgrade Agreement for Twelve Months	\$900.00

FastSHAPES® - Thick/Heavy Plate Development NC Suite – *Tackle even the largest jobs with ease*

Complete transitions in minutes ready to send to the burning machine with line marking and the number of degrees for forming every bend. FastSHAPES® covers the most complex to the simplest of shapes for the fabricator. All read directly into 2D and 3D CAD systems. Includes Online Help and User Tips.

Code	Name	Description	TYPICAL APPLICATION
FB1.1	Dr Cone	Mitred right conical developments	Educational
FB1.2	ELBOW	Constant radius lobster	Bulk Materials Handling - chutes Fluids Conveying - transitioning bends, vents.
FB1.3	RORT	Rectangle to round	Anywhere a Rectangle - Offset Round Transformer is needed, especially with thick plate. Ducts, flues, shrouds etc..
FB1.4	OBCONE	Oblique cone	Forms Part of more complex structure structures, e.g. in rectangular to round transformers, chute work, liners.
FB1.5	BIFURCATE	Pipe & cone planar bifurcate	Bulk Material storage bin hoppers Tank Roofs Flagpoles Flanges, flange segments, discs Any right circular conical structure with multiple strakes of varying thickness
FS1.6	PIPE-RUN	Reticulated pipelines	Hydro Electric Power Pipe runs
FB1.7	PBRANCH S	Structural connections	Petrochemical - pipework branches Pressure Vessel manufacture - shell and nozzles Structural joints (e.g. oil rig jacket)
FB1.8	PBRANCH I & O	Pipe Branches both Set In and Set On	As for above
FB1.9	CONE	Multi segment	Bulk Material storage bin hoppers, Tank Roofs, Flagpoles, WindTowers, Flanges, flange segments, discs - Any right circular conical structure with multiple strakes of varying thickness
FB1.10	LOBSTER	Tapered lobsterback	Bulk Materials Handling - chutes Fluids Conveying - gored (lobsterback) pipe bends, vents.
FS1.1	RECTIRCLE	Multi shaped/strake transformation	Bulk Materials Handling - hoppers and chutes. Fluids Conveying - ducts, transitions, - transformers, hoods, shrouds. 'Industrial strength' structures - thick plate.
FS2.2	BEND	Transforming Bend	As above
FS2.3	CBRANCH	Conical Branches	Fluids Conveying - branched takeoffs - conical and circular transitions Nozzles in tank roofs or hoppers.
FS2.4	BIFURCATE	Pipe & cone planar bifurcate	Fluids conveying, generally.
FS2.5	PENSTOCK	Tapered bent pipes	Hydro-electric penstocks Generalized tubes and bends, circular cross-sections
FS2.6	SURFACE	Coverts 3D dxf to flat plate w/press marking	Hull development in ship building is an example but really any complex surface development that needs to be developed from flat plate
FP1.1	SPROCKET	Chain Sprockets	Roller Chain Power Transmission generally. Drag Chain Conveyor drives Bucket Elevator drives
FP1.2	RANDP	Rack and Pinion	Spur Geared Power Transmission Linear (Rack and Pinion) drives (e.g. conveyor shuttles)
FP1.3	INVINT	Involute Gears	Spur Geared Power Transmission Tilting Equipment Drives (e.g. Ladles) (Often used as 'rack' with pinion from RandP)
FP1.4	SPROCKET Plus	Universal sprocket	As for Sprocket
FSS	FastSHAPES®	System for Plate	Complete Price for all of the above \$5,000.00
FSSL	FastSHAPES®	Site License	CALL

Shape Development Hand Cutting – *Eliminates the need for calculations*

TIB	Tradesman in a Box™	(Shape) Layout & Fabrication Software for Shop Floor Operation. Prints co ordinates and/or templates. Offers great value!	Ideal for hand cutting or optical pattern production without requiring expert boilermaking skills.	\$695.00
-----	----------------------------	---	--	-----------------

Tubular and Pipe Heavy Fabrication Development Systems NC – *Eliminates the need for calculations*

FF	FastFRAME®	Pipe and tubular profiling templates	For complex space frame development	\$17,500.00
FBM1	FastBEAM™	Simple fast way to program beamlines.	NC for Beam line drills - Wagner, Peddinghaus, Ficep. Call for others.	\$19,500.00
FP	FastPIPE™	Profiling pipe ends and penetrations (up to 3 axis)	Pipe processing, Pipe to Pipe, Reticulation	\$5,000.00
FPPlus	FastPIPE™ Plus	Profiling pipe ends and penetrations (3-6 axis)	Wrap arounds plus NC programs	CALL

International Software Price List

Published May 2006

All Prices are in US Dollars

Plate and Remnant Management System - *Manage all of your plate stock.*

FC1.11	FastTRACK®	Track remnant plate with graphic display, automatic calculations of Area, Weight, Cost etc. Stores parts with mill number, supplier etc	Ideal for service centers and stock reconciliation needs. FastCAM NC with nesting not required but recommended.	\$1,995.00
--------	-------------------	---	---	-------------------

NC Digitization - *Cost effective option to large scale vectorization*

FC1.12	FastCOPY®	Easily digitize all your required processes into the one program, Marking, Centre Punch / Pop Mark, and all cutting processes. High quality cut.	Where you have a need to convert old templates or have a regular need to digitize actual parts. Optical→NC	\$1,995.00
FC1.13	FastCOPY® Complete * USA only	Including 42" x 60" Digitizer Prices on application outside USA	Optical→NC As above with hardware	\$4,995.00

FastCAM® NC – Modules and Upgrades

FC2.1.5	FastNEST® Semi to Auto UPGRADE	Upgrade from FastCAM Standard to FastCAM Professional. Fully automatic nesting.	A fully automatic system. Multi plate, Multi Input Multi output, intelligent auto pathing	\$2,995.00
FCL2.1.5	FastNEST® Semi to Auto UPGRADE-LASER	Specific to Laser machines. Upgrade from FastCAM Standard to FastCAM Professional, Fully automatic nesting	Multi plate, Multi Input Multi output, intelligent auto pathing	\$4,995.00
FC1.10	FastNEST® Interactive	For FastCAM NC users who want to add semi automatic nesting. The user manually positions the parts on to the (single) plate. Handles arrays.		\$1,795.00
FC1.8	FastPATH™	Automatic pathing of geometry & NC files. Produces smart NC code fast. Big time saver on complex parts. Requires FastCAM NC.		\$695.00
FC1.9	FastTRAN™	Where you have multiple cutting machines with different controllers. Universal CNC File Translator Burny→Lynx..etc		\$695.00
Txm	TextMARKER™	Marking / Identification on parts. Requires FastCAM v5+ release and appropriate marking device or equipment fitted to machine.		\$495.00
DWG	FastCAM® AutoCAD® DWG Import	Import DWG files directly into your FastCAM System. No need for a separate CAD system just to read customer files. Requires FastCAM 5.5+ release.		\$495.00
CCP	Common Cut Pairs	Cut two geometry in a single pass. Requires FastCAM Professional v5.9. Pairs Only.		\$495.00
ADDLIC	Additional Workstation License	Add another license to your current edition / version of FastCAM system software.		\$1,250.00
FCT	Training	2 Day on site Training within USA only, inc travel & accommodation. Covers FastCAM and FastSHAPES and/or other programs as agreed prior.		\$2,650.00
FSER	Service and Maintenance	Annual Software Maintenance/Upgrade Agreement for Twelve Months		\$900.00

FastCAM® - Standalone Productivity - *Simple needs, simple solutions*

FC1.3	FastCAM®	FastCAM non-NC edition (drawing only)	Drawing, DXF→DXF	\$495.00
FC1.4	FastPLOT™	NC Code verification only	NC→ PLOT Costing	\$495.00
FC1.5	FastCUT®	Optimizes material , prints graphic cutting lists and gives you basic costing information.	Shear & Saw for plate and bar	\$495.00
FC1.5S	FastCUT® Linear	Optimize Linear components/parts only	Shear/Saw processing for tube, bar etc	\$295.00
FC1.5A	FastCUT® Labels	Labeling program for FastCUT data files	Identification of parts produced	\$195.00
FC1.1	FastLINK	16 & 32 Bit DNC	Lynx, Burny, Creonics, ESAB, etc	\$295.00
FC1.2	FastLINK™ Plus	Server Edition – DNC 32 bit	Multi machine DNC	\$495.00
FC1.6	FastCUT CTL	Shear Cut to Length Lines	Coil, Sheet, Bar, Tube.....	\$995.00
FCO	FastCAM® Outline	Reads graphic files in various formats including BMP, TIFF, AWD. Converts data into DXF format suitable for processing via NC Machinery	Ideal for converting non-dimensioned artwork into cutting files. Ornamental iron work, signs, machinery logos etc	\$395.00
Fgen	FontGEN	Turns True Type Fonts into DXF or CAM files for Cutting/Marking	Ideal for Sign-making and Marking applications	\$295.00
Kerf	FastCAM® Kerf	Kerf compensates programs on PC instantly before downloading to the control	Perfect for all Burny controls, to help speed up production	\$2,500.00

1. All Prices in this price list are subject to change without notice. 2. Prices are software only and exclude hardware, shipping & installation unless specified. 3. Additional user licenses available for all products. Call for pricing. 4. FastCAM software is compatible with Windows 98, 2000/ME, NT, XP.
